

Praise & Prayer Letter – November 2025

Dear Partners in Prayer & Ministry:

As we celebrate Thanksgiving tomorrow, I am especially thankful for each of you who stand so faithfully with this ministry month after month with your prayers and financial partnership. I am sincere in saying that your involvement in our efforts is a key part to the successes we continue to see as God directs and blesses. Your vision and commitment are a huge encouragement to me every day!

Thank you for your prayers for my health. I continue to improve and get good reports from my doctors. I am busy coordinating next year's meetings with pastors and our field directors. We are trusting God for continued victories as we walk through new open doors and continue to expand the ministry of Operation GO International in Latin America. Our directors continue to train and equip local church pastors and leaders.

In **Bolivia**, Pastor Joel Villarroel and his wife have both been involved in OGI Training Institutes. Bro. Joel conducted an Institute in a local church close to Santa Cruz with good results. Seventy-five pastors/leaders from 5 different churches received training. Mrs. Villarroel was able to train over 200 women in Operation GO in a women's retreat.

The ministry in **Palmasola Prison** continues to expand. New converts are being discipled and the number of men involved in the Bible Institute continues to increase. Also, thanks to a faithful ministry partner, we will be able to provide 1,000 feminine hygiene kits to the women's division next month. That will be a real help to the couple who have just begun that ministry. They average 800-1,000 inmates in the women's division. In addition, Pastor Villarroel reports that new churches continue to join the **BOLIVIA FOR CHRIST CAMPAIGN**. That is a great blessing! And another blessing is that we were able to provide the funds to repair the vehicle of this faithful pastor!

And yet another **BLESSING** in **Ecuador** from our dear Lord among the **Quichua**! For the **FIRST TIME** to my knowledge, a young man who received training in one of the Institutes that we conducted last month has started training a group of Quichua believers in **OPERATON GO**! I am so encouraged by that! Pray that this is the beginning of a wonderful **HARVEST**!
